## ■ 2. MagnumResortHotel – Architecture and inspiration

The interiors of the MagnumResortHotel are the art of balance between modernity and tradition. The decoration is dominated by natural materials: wood, linen, stone, which are combined with the geometry of modern minimalism. Author's furniture, handmade by local craftsmen, is harmoniously combined with designer lighting that adapts to the mood of the day.

Each room has its own character, color scheme and aromas that correspond to one of the parts of the day: dawn glow, sunny saturation of midday or soft shadows of twilight. All these elements create not just a space for sleeping, but a holistic environment for deep relaxation and aesthetic pleasure.
